Joint press release

As part of the Royal Vision, which aims to empower Moroccan expatriates to contribute to Morocco's development programmes, and as part of the implementation of the « MRE Academy » programme, launched last June, a special partnership agreement was signed on Monday, 08 February 2021 in Kenitra with the German Moroccan Competencies Network (DMK).

The aim of the agreement is to identify the areas of formulation and intervention of Moroccan competencies based in Germany who specialize in the automotive industry and who will undertake theoretical and practical training in favor of trainees and professionals, and to contribute to the formulation of training programmes to suit the latest developments in the field, as well as to provide the centres with the necessary equipment and technical means to carry out applied work.

A specialized automotive team from the German Moroccan Competencies network visited two vocational training centres in Kenitra and Salé, with a view to accompanying them.

it should be noted that this agreement comes within the framework of implementing the "MRE Academy" programme, launched by the Ministry in charge of Moroccans Living Abroad and the Office for Vocational Training and Labour Promotion, last June, with the Medical Moroccan Competencies Network, the Moroccan Competencies Association in Switzerland, the German Moroccan Competencies Network, the Moroccan Competencies in Aviation Industry living in Canada Network, and the American Moroccan Competencies Network. This program relates to the areas of aviation, automotive, health, digitization, artificial intelligence and e-learning, which are priority areas for the Office's work plan for implementing the new road map projects for the development of the vocational training sector.

Moreover this programme aims at increasing the level of contribution of the global Moroccan competencies networks in the economic field and sustainable development by transmitting their experience and expertise in several areas, as well as enabling them to transfer their skills to vocational training students appropriate to the needs of the labour market.

It is worth mentioning that the Ministry Delegate in charge of Moroccans Living Abroad has adopted the National Programme for Moroccan Competencies living abroad Mobilization as an institutional framework aimed at strengthening the contribution of Moroccan expatriates to national development programmes.
